ON-THE-GO NORDIC LUXURY

As a brand born from the philosophy of providing the finest quality in luggage, bags, briefcases and accessories, Arsante of Sweden makes a bold statement. With a minimalist approach, comfortable style, and design dominated by clean shapes, this is on-the-go luxury at its best. The company takes immense pride in using the finest quality of genuine leathers, cotton fabric linings and industry grade materials. All Arsante products are handmade in a decades-old family owned factory.

SPORTY, STYLISH, SPECIAL

Bentley fans in the Middle have much to rejoice with the launch of a special version of the Bentayga luxury SUV. The new Bentayga Black Specification is the company's curated response to customer feedback in the region.

As the world's fastest and most luxurious SUV, Bentayga has long been deemed stylish, but it is now even more striking. Featuring 22" black gloss five-spoke directional alloy wheels and black exterior detailing on the front bumper splitter, side sills, rear bumper diffuser and rear spoiler, it is finished in an array of paint choices. It does 0-100km/h in 4.1 seconds, and has a top speed of 301km/h.

STANDING TALL, STANDING OUT

Christian Louboutin's AW17 collection is certainly among his most dramatic. Featuring Cuban and stacked heel boots and Oxfords that lend 50mm heel height, the elevated silhouettes and modern materials still hint at history from rock-and-roll fashion. The Huston features slim welt and sleek side zipper, and comes in calf leather, cowboy print pony hair, rugged suede and two glittering versions with double-sided sequins. The Ziggissimo boot's Dark Leo model, meanwhile, is in leopard print, while the Papal boot features a single, whole-cut piece of leather that covers its entire upper and heel. The Lord Cubano and Philcat evening Oxfords simply spell elevated elegance.
